

FAAST Team Western Pacific Region presents:

Avoiding Winter Weather Hazards!

Flight planning decisions based on aviation weather can dramatically affect the safety of flight. Winter weather presents even more risks that pilots must mitigate during their preflight planning. Meteorologist Larry Smith, with NWS, will provide a discussion of winter weather hazards including pressure systems, frontal passage, icing, fog and clear air turbulence. He will present an overview of the services available to pilots to help make their "Go/No Go" Decision an educated one. Join us and get prepared for the many challenges you might face this winter in your aviation endeavors.

Our speaker, Larry Smith, is a meteorologist with the National Weather Service in Monterey. He serves as the Beach Safety and Coastal Hazards Program Leader. Larry has a Bachelor's Degree in Earth Science and Meteorology from California University of Pennsylvania and a Master's Degree in Atmospheric Physics from the University of Missouri - Columbia. His weather interests include climate change, aviation weather forecasting and hazards associated with winter weather.

Event Details

Fri, Oct 23, 2015 - 09:00 PST
Chaminade Resort & Conference
Center, Santa Cruz, CA
1 Chaminade Lane
Santa Cruz, CA 95060

Contact: MARJORIE LANE BACHMAN
(831) 722-5138
